

HIGH POTENCY FERMENTED SUPER FOOD

ORGANIC, PURE, EFFECTIVE...

NutriDoc High Potency Organic Raw Fermented Super Food is a phytofood style product containing whole food ingredients naturally fermented with several lactobacillus strains, bifidobacterium and beneficial yeasts for extraordinarily high bio-availability.

The ingredients in **NutriDoc High Potency Organic Raw Fermented Super Food** have been chosen to provide a wide range of building blocks and detoxifying agents that our bodies can use to naturally create hormones, enzymes and support healthy growth and metabolism. This combination of naturally fermented raw organic whole super foods can easily be added to your diet to supply simply digested nutrients that have traditionally been highly valued foods but are often lacking in our modern diets.

The ingredients chosen for this blend deliver a balanced array of highly absorbable and diabetic friendly carbohydrates, proteins that have a complete amino acid profile and omega-3 rich fatty acids.

NutriDoc High Potency Organic Raw Fermented Super Food is the perfect foundational super food product for use in any detox program where decreased caloric intake and increased liver nutrients are desired. Naturally fermented and naturally balanced - it is the natural choice in biofermented super foods!
